

September 23, 2022

Greetings to the entire extended Preferred Care family,

I hope this email finds you and your family well.

We are happy to inform everyone that as of today we do not have any COVID+ residents or staff. Although this is a great accomplishment due in large part to the dedication and hard work of our front line heroes, we recognize that there is still work that needs to be done. To that end, we continue with our disinfecting routines including all high touch surfaces and common areas. We continue to screen every staff member and visitor upon entry to the building and we continue to test our staff routinely. We offer, and encourage, family members the opportunity to get rapid tested for COVID if they want to visit a loved one within the facility.

Please see the attached letter from the NJ Department of Health regarding the new Bivalent booster shot. Our first clinic is this Wednesday 9/28/22 and we highly encourage all family members to consider and consent for their loved one to get this booster. A staff member may be reaching out to you within the next few days for consent. Please see the You Tube video below which offers more information about the Bivalent shot.

Should you have any questions or concerns feel free to reach out to us at any time.

Until next time, stay safe and have a Blessed weekend.

Sincerely,

*Steve Dickstein LMA*
